

NEWS RELEASE

November 10, 2022

REFINVERSE Group, Inc.

Aiming to Stimulate the Recycling of Fishing Nets and to Form a Recycling-oriented Society **Provision of REAMIDE® Recycled Nylon Resin to NEUTRALWORKS.**

Refinverse, Inc. (Head Office: Chuo-ku, Tokyo / President and CEO: Akira Ochi) manufactures and sells REAMIDE® nylon resin. We make this REAMIDE® by recycling discarded fishing nets said to be one of the causes of the marine pollution problem. We have collaborated with various companies working proactively to solve environmental problems.

We will now start providing REAMIDE® to NEUTRALWORKS. of GOLDWIN INC. (Head Office: Shibuya-ku, Tokyo / President & Representative Director: Takao Watanabe). NEUTRALWORKS. will sell the FISHAND series made in part with discarded fishing nets from November 11 (Fri).

*Please refer to the press release from GOLDWIN INC. for details of the product.

The sweater and cardigan to be released this time have been modeled on fisherman's knitted wear worn in work on the harsh sea out of respect for fishermen. We turn the discarded fishing nets we have collected into REAMIDE® recycled nylon resin and process it into recycled nylon thread. After that, it is mixed with recycled wool to produce a low gauge with a bulky and coarse stitch.

Commercialization Process

We will continue to collaborate with various companies and to develop materials and applications to add higher value to recycled materials as well as recycling discarded fishing nets. Our aim with this is to realize a sustainable society.

*REAMIDE® is a registered trademark of REFINVERSE Group, Inc.
